

LEGACY PLAN

CASE STATEMENT

“You have provided a priceless gift to our mother, Ninel... The unquantifiable amount of attention and time devoted...truly made a difference in her life. You did not just give her life, but quality of life. ... a new lease on life, ... It is nearly impossible to describe how much good your devotion has done for our family”

Founded over 75 years ago, Daughters of Sarah remains the only comprehensive residential health care community for older adults in the area operating upon, and guided by, Jewish values, practices and traditions. Motivated by the ethics of “honoring one’s father and mother” and “performing acts of loving kindness”, we bring dignity, respect, and quality of life to seniors, their families, and their caregivers.

At Daughters of Sarah, we provide a Jewish environment that encourages elders to maintain and strengthen their independence, preserve their comfort and right of choice, and promote their safety and security. We offer a continuum of care that emphasizes and offers opportunities for life enrichment, quality healthcare, continued learning, motivating activities, and compassion in challenging moments or end of life. Our diverse programs, now and into the future, afford spiritual, social, physical, and cultural support, enabling the region’s elders to flourish in their final years - to age gracefully in place, while addressing their short-term or long-term health care needs.

Sarah’s Society Legacy donors are foresighted and compassionate individuals, just like you, who have accepted the mantle of assuring the well-being of our elder adults throughout the daily rewards and challenges of aging. Sarah’s Society members:

- Ensure that the emerging and evolving needs of older adults and their loved ones are culturally, spiritually, and caringly met;
- Maintain a Jewish Healthcare facility as an integral component, and the essence, of an overall vibrant and viable Jewish community;

For four generations, our mothers and fathers had the wisdom to plan for the needs of our aged community. Join us in securing those needs for ensuing generations to come.
